To the Los Angeles Community College District Community and those it serves:

Fulfilling its obligation to the Los Angeles Community College District, its building program and the taxpayers of L.A. County, the District Citizens' Oversight Committee submits this report on the status of the bond program at the conclusion of the 2014-15 fiscal year. It has again been a productive year of construction, renovation, upgrading and the furnishing of structures at LACCD's nine colleges and its satellite campuses. We hope this report will be reviewed by all who have an interest in this monumental endeavor, from users and administrators to staff, faculty, the student body and, of course, the taxpayers, a majority of whom have generously approved funding for these projects over the last 14 years through bond propositions A, AA, and measure J. Without your support, this program would not exist.

Most of the Proposition A and AA bond funds have now been expended and the projects built with those funds are in their final stages of closeout. The Measure J bond projects are well underway with a majority of the funds committed and several of the projects either completed and in the closeout phase or currently under construction.

In April, 2013, the LACCD Board of Trustees approved a program management contract with AECOM. With the second year of the agreement now completed, the improved project controls are well established with key metrics in place to measure the ongoing performance of the bond program. Several audits have been performed over the past year and they show that the improved controls are effective.

In the past year, 25 projects (seven at L.A. City College, six at West L.A. College, three at Harbor College, three at East Los Angeles College, four at Trade Tech College, one at Southwest College and one at Pierce College) have been completed. More information on these projects can be found in the dashboard reports on the www.buildlaccd.org website.

The excellence of the building program has been recognized in the past year by three organizations that bestowed prestigious awards on bond projects, including a national honor. The Design-Build Institute of America's National Design-Build Award for Educational Facilities went to Los Angeles Mission College's Center for Math and Science. At the Los Angeles Architectural Awards, hosted by the Los Angeles Business Council, the Education Award went to Los Angeles City College's Student Union. One of the San Fernando Valley Business Journal's Commercial Real Estate Awards, the Best Public Project, went to Los Angeles Valley College's Library and Academic Resource Center.

Last year, the DCOC began holding its meetings at LACCD's colleges. This policy continued this year,

enabling our committee members to inspect every LACCD campus. During these visits, we observed many students using the newly constructed or newly renovated buildings. This has enabled us to better gauge the progress of the many ongoing projects in their various stages of development.

Our volunteer committee will proudly continue fulfilling our mission of keeping all concerned parties apprised of the status of the bond program.

Drawing on the experience of our members in both the construction industry and educational facilities, we monitor all aspects of the program including master plan revisions, significant change orders, construction schedules and financial matters, offering our expertise and advice should any concerns arise.

The DCOC consists of three regional members, representing the nine LACCD colleges, along with representatives from business, labor, LACCD's foundations, taxpayers, the student body and seniors plus a member of the community at large. All DCOC members are required to disclose their financial interests in order to avoid the perception of any conflict of interest. The full committee meets at least quarterly with additional meetings on specific issues held by ad-hoc committees, who, in turn, make recommendations to the full committee. Information about the bond program is supplied to the DCOC through interaction with the LACCD Board of Trustees, the Chancellor's office and District staff members, along with personnel at the various campuses through supplemental reports. The DCOC also regularly reviews bond program and performance audits. All DCOC meetings are recorded and posted on www.buildlaccd.org along with minutes of all the meetings.

Being chairman of the DCOC has proven to be a gratifying experience, but it is a position in which I could not be successful without the effort and support of my fellow committee members. I have so much admiration for them and for those who served in previous years, working so hard to make the DCOC the efficient and effective group it has become, a committee that can give the public confidence that taxpayer dollars are being spent wisely, honoring the intent of the voters to provide a collegiate environment that supports and promotes student success. I am also thankful for all those in the District who have given us the support we need to do our job.

We must never forget that the ultimate mission for all of us connected to the program is to serve our students.

Daniel Swartz, Chairperson, DCOC

ABOUT THE DISTRICT

Over the past seventy-seven years the Los Angeles Community
College District (LACCD) has served as the educational
institution to more than three million students. Affordable,
accessible and practical, the LACCD offers opportunity to all.
The doors are wide open for a diverse student population eager
for skills, knowledge and upward mobility. LACCD educates
almost three times as many Latino students and nearly four
times as many African-American students as all of the University
of California campuses combined. Eighty percent of LACCD

students are from underserved populations. The LACCD serves approximately 250,000 students a year in 36 cities across an area of 882 square miles. LACCD is, by many measures, the largest community college district in the United States. The LACCD is composed of nine comprehensive colleges and a central office, which together employ roughly 4,400 full-time and part-time faculty, and more than 5,400 full-time and part-time administrative and support staff, including about 1,800 part-time student workers. An elected, seven-member Board of Trustees, serving four-year terms, governs the LACCD. One student trustee, selected by the students, serves a one-year term beginning on June 1st of every year.

Propositions A/AA and Measure J - District Citizens' Oversight Committee:

The Board of Trustees for the Los Angeles Community College
District formed the District Citizens' Oversight Committee (DCOC) in
June 2001 to provide a vital link between the District and the
community with respect to implementation of Proposition A funds for
construction and modernization projects within the District. The
Proposition A bond measure totaled \$1.245 billion. The voters
subsequently approved two additional bonds: Proposition AA and
Measure J. Proposition AA bond measure totaled \$980 million and
Measure J bond measure totaled \$3.5 billion. The DCOC consists
of representatives from the local communities. The DCOC
members are appointed for a two year term and can be
re-appointed for a term not to exceed two consecutive terms.

Highlight

On December 2014 the Standard and Poor's rating services upgraded the District's bond rating from "AA" to "AA+", which results in savings to taxpayers due to reduced borrowing costs.

Report Covers Fiscal Year 2014-15

This is the DCOC's formal annual report on bond money generated by Propositions A, AA and Measure J, consistent with the requirements of Proposition 39.

DCOC Establishment, Purpose and Responsibilities

As provided in Education Code section 15278, the District's Citizens' Oversight Committee was established by the Board of Trustees to inform the public concerning the District's expenditure of revenues received from the sale of bonds authorized by the voters on April 10, 2001, May 20, 2003 and November 4, 2008.

The District Citizens' Oversight Committee will provide oversight ensuring that:

- a. bond revenues are expended only for the construction, rehabilitation, or replacement of college facilities, including the furnishing and equipping of college facilities, or the acquisition or lease of real property for college facilities; and
- no bond revenues are expended for any teacher or administrative salaries or other college operating expenses.

OUR MEMBERS

Members:

Daniel Swartz, Chair, Taxpayer Representative, Principle, Quadrangle Development Company

Richard Slawson, Vice-Chair, *Senior Representative*, Executive Secretary, Los Angeles/Orange Counties Building & Construction Trades Council (Retired)

Lanny Nelms, College Representative, Principal, Harbor Community Adult School (Retired)

David Morin, College Representative, Chair of Mathematics Department, East Los Angeles College (Former)

Donna "Obie" Slamon, College Representative, Chair, Los Angeles Pierce College Citizens' Oversight Committee

Dr. Elliot Axelband, At-Large Representative, Senior Engineer, RAND Corporation

David Rattray, *Business Representative*, Sr. Vice President of Education & Workforce Development, Los Angeles Chamber of Commerce

David Gomez, *Labor Representative*, Business Development Associate, IBEW/NECA (International Brotherhood of Electrical Workers/National Electrical Contractors Association)

Dr. J. Eric Bubbers, *Foundation Representative*, Vice President, Los Angeles Valley College Foundation Board of Directors Michael J. Griggs, *Student Representative*, Student Trustee, Los Angeles Community College District

DCOC Regular Meetings

All meetings are open to the public, recorded and documented by minutes. The schedule for 2015-16 is:

August 14, 2015, 12pm-2pm - ESC

October 9 2015, 12pm-2pm - LATTC

December 11, 2015, 12pm-2pm - Location TBD

February 26, 2016 12pm-2pm - Location TBD

April 29, 2016 12pm-2pm - Location TBD

June 10, 2016 12pm-2pm - Location TBD

Please check the website for schedule/location changes:

EAST LOS ANGELES COLLEGE PROJECT HIGHLIGHTS

Each year, ELAC helps more than 1,000 of its students transfer to the University of California and California State University systems. Forty-seven percent of its students are focused on transferring to a 4-year school while 18 percent are working toward career preparedness. The college's 80-acre campus is located 10 miles east of downtown Los Angeles in suburban Monterey Park.

2014-15 DCOC Annual Report

LOS ANGELES CITY COLLEGE PROJECT HIGHLIGHTS

The 78-year-old campus is located on 49 acres in the heart of Los Angeles. The college is enhancing its campus with a new, advanced technology learning facility, increased parking, and expanded athletic/fitness and child development centers. LACC's math and debate teams are nationally recognized and its theater and cinema-television programs are among the best in the country.

LOS ANGELES VALLEY COLLEGE PROJECT HIGHLIGHTS

Since 1949, Los Angeles Valley College has offered students the education, skills and training necessary to pursue their dreams at the school's Valley Glen campus, located in the eastern San Fernando Valley. Valley College's maintenance and operations building was the first LEED-certified building completed by LACCD's bond-financed build program.
