Executive Architect: MDA Johnson Favaro	Associate Architect: Gruen Associates	Contractor: Taisei Construction Corporation	Construction Manager: Anil Verma Associates	Program Manager: BuildLACCD
---	---	---	---	---------------------------------------

Ground Breaking: November 2007 | **Completion:** January 2010

Los Angeles Trade-Technical College's new \$126 million South Campus Project modernizes one of the nation's leading technical colleges.

- The project consists of **two five-story buildings** with more than 120,000 square feet of office and classroom space, and includes the:
 - Technology Classroom building (66,228 square feet)
 - Student Services building (56,302 square feet)
- Other features of the South Campus project include:
 - A utility building (1,800 square feet)
 - Extensive landscaping

Green Features

- Both buildings have been developed to meet the U.S. Green Building Council's LEED (Leadership in Energy and Environmental Design) Silver rating standards.
- The South Campus Project's sustainable design standards include:
 - Implementation of optimized energy performance, CFC and HCFC free equipment; construction waste management and recycled and local materials use; indoor air quality and chemical control; low-emitting materials; commissioning of HVAC; electrical and BAS systems; and connection to the planned campus solar array.
