

BuildLACCD PAID INTERNSHIP PROGRAM

The Build-LACCD Internship Program is designed for LACCD college students looking to explore career options while building the skills and experience necessary to pave a pathway to careers in Science, Technology, Engineering and Mathematics (STEM) and other related opportunities within the construction industry.

BENEFITS

- Gain valuable work experience and transferable skills
- Earn while you learn
- Be able to experience a prospective career path
- Network with professionals in your field, for references and future job opportunities
- Flexible hours to accommodate your schedule
