East Los Angeles College's new 18-acre Southeast Campus brings a permanent, state-of-the-art educational facility offering unequalled opportunities for a growing student population. The new campus creates a vibrant, sustainable learning center in the heart of South Gate.

Encompassing 103,000 square feet, the new 3-story facility will serve as the catalyst to transform a neglected industrial property into a landmark of progress and renewal. The new building will include 28 classrooms and 4 labs to support the Career Technology Education, Liberal Arts, and Science programs. Additionally, the building will house one library, a gym/multipurpose room, a 100-seat lecture hall, and a student lounge.

The campus aims to provide all core services found on the main Monterey Park campus such as health center, financial aid office, transfer center, admissions and records office, counseling, and student bookstore. It will provide over 950 parking spaces and support multi-modal transit with 100 bike racks, electric vehicle charging stations and easy access to public transportation. The central courtyard includes permeable pavers and the water efficient landscaping will reduce water irrigation use by 50% with no impact on aesthetics.

East Los Angeles College as an international, multicultural student body that reflects the 14 communities it serves. The Southeast Campus is an extension, created to extend ELAC's academic services to the southeast corridor of Los Angeles County, a historically underserved region with limited opportunities for higher education.
